FSG meets ASIA and the WORLD project

Learn 'Japanese Technology' . Change the World!

Japan is the acknowledged world leader in pop cultures and technologies like Cartoon, Animation, Gaming, Beauty, Fashion, PC, Automobile or Manufacturing. Individuals with skills in these fields are in high demand by major companies all over the world.

700 young adults armed with such highly demanded skills graduate every year from FSG, one of Japan's largest college groups with five schools offering 47 different courses.

At FSG the students are taught under FSG's unique education system called 'Nihon 流' (or Nihon-Ryu, the Japanese way), which teaches the students the 'Japanese Technology' combined with the human-element of 'How to practically apply the learned technologies'.

FSG now welcomes you to learn under the FSG 'Nihon 流' system to be a quality graduate with skills in demand in various industries in your home country and all over the world.
